

WEB (web.mnstate.edu) FTP Settings

This is high-level settings and instructions on how to connect to the web server **web.mnstate.edu** using an FTP client. We do not support anything beyond getting someone connected and authenticated to this web server.

You **MUST be on the MSUM network** to establish this connection; if you are not on campus you need to use the VPN client or Direct Access.

USERNAME & PASSWORD for web3 is the users StarID username and password.

1. Connection Name: web.mnstate.edu *(This is what I recommend, but you can name it anything.)*
2. Server: spider.mnstate.edu
3. Username: StarID
4. Password: your current StarID password
5. Remote Directory: /foldername *(Replace "foldername" with your web folder name.)*
6. Checkboxes

The following should have checkmarks:

- Use SSL/TLS, if available
- Binary transfer mode (TYPE I)
- Compatible mode (for old Proxy/NAT)
- Use random command

FTP [web.mnstate.edu] ? X

Connection Name:

Add to folder:

Server:

User Name:

Password:

Remote Directory:

Authentication account:

Connection Timeout: s

Use SSL/TLS, if available

For SSL use Prot P (private) instead of Prot C (clear) mode

Passive Mode

Binary transfer mode (TYPE I)

Compatible mode (for old Proxy/NAT)

Old file listing (LIST instead of MLSD)

Show hidden files (must be supported by FTP server)

Keep Connection by Sending: Every: s

Use random command

Change File Name to Lower Case

Cut off file extension before save to FTP

Use Proxy Server

FTP server uses special (localized) Month Names:
